OTHER RULES TO BE FOLLOWED IN CASE OF FIRE

- In case of smoke or flames, cover your mouth and nose with a wet handkerchief; walk belding over as much as possible in order to inprove breathing and visibility.
- In case of flames, protect your head with cotton or woolen clothes (wet if possible) and avoid synthetic fabrics.
- Shut the doors (do not lock them) before leaving the premises.

What you should know:

All emergency layout plans placed at the entrance of industrial buildings, in the vicinity of lifts and along corridors show the following information:

- Evacuation and emergency exits;
- Meeting point locations;
- Fire-fighting equipment locations.

CODE OF CONDUCT TO BE FOLLOWED IN THE EVENT OF EVACUATION FROM PREMISES

The evacuation signal is a continuous sound lasting 1 minute.

Upon hearing the evacuation signal, you must:

- Interrupt any phone conversation in progress;
- Leave your workplace immediately, taking care only to put equipment being used under safe conditions (do not linger to collect personal belongings, etc.);
- Keep calm; proceed to the nearest exit; do not carry any bulky object; head to the Meeting Point following the paths shown on the emergency exits;
- Do not use lifts or hoists;
- Do not go back for any reason;
- Do not run, push or shout - this will only create confusion
- Help co-workers and visitors in trouble, and above all, disabled people;
- Do not obstruct entrances and emergency exits intended for rescue access;
- Do not use parked vehicles, scooters and motor-cycles;
- If on a vehicle, park it immediately (away from any firefighting equipment) and leave internal traffic ways clear;
- Once the Meeting Point has been reached, each Supervisor shall make sure that all his/her employees are present. Should a member be missing, he/she shall immediately inform the Emergency Team;
- Wait for any further instructions at the Meeting Point. A special acoustic signal will give the all-clear.

When the all-clear signal is given (a continuous sound lasting 1 minute), it will be possible to return to one's workplace.
